Dear Josh:

I enclose three items for your possible interest. One is a "sanitized" version of the review of the DSB Chemical Warfare Panel report which I wrote as a consultant for the Defense Department last January. I also enclose a copy of my Senate testimony on Yellow Rain. What I have learned since giving it would lead me to place much less emphasis on the question of natural occurrence.

The third is a copy of a letter to Chester Mirocha which is self-explanatory.

If you have any plans that would bring you to the Boston area with a little time to spare, I would love to have a long chat with you.

As ever,  
  
Matthew Meselson
